Linear Art Project

First you plot the lines on the graph. make sure the are straight and not crooked.

y=8/5x+16	y=-8/5x+16	y=12	y=-12
y=-5/2x	y=4/5x+4	y=-3/4x+4	y=-4/5x+4
y=5/2x	y=3/4x+4	y=-1/2x-6	y=1/2x-6
y=15/4x	y=-15/4x	y=-11/12x-6	y=11/12x-6

Stop

Now what you do is add you extra points.

(2,11)	(2,7)	(-3,7)	(-9,11)
(-9,-11)	(-3,-6)	(2,-6)	(2,-11)

Stop

Do these points now.

(3,1)	(10,1)	(3,-5)	(10,-5)	(5,0)
(8,0)	(5,-3)	(8,-3)	(5,-5)	(5,-6)
(7,-14)	(10,-13)	(3,-9)	(3,-15)	(5,-15)

Stop and now you are done making the linear art project.
